OLD AGE PENSION BRINGS ARGUMENT

Believe Measure Will Be Approved As Recommended By President

By WILLIAM S. NEAL International News Service Staff Correspondent

WASHINGTON, Jan. 21.—The administration's vast program for eco-nomic security started through congress today when the house ways and means committee opened hearings on the plan. Speed was promised in the completion of heareven to the point of holding night sessions, by Chairman Doughton (D) of North Carolina. It may require three weeks, however, to get the bill to the house. The senate finance committee will open hearings on the measure tomorrow.

See Approval. Despite dissatisfaction over many provisions of the Wagner-Lewisprogram will be generally approved. Recognition of the enormous cost of old-age pensions, unemployment insurance, child, mother and public health aid, will prove a "sobering

nfluence", they said. Backers of the Townsend \$200-amonth old age pension plan, and senate advocates of boosting the oldage pension to be paid by states with federal aid to \$40 or \$50 a month, promised a bristling fight. Senator Walsh (D) of Massachu-

setts suggested the pensions begin at 70 instead of 65, while Senator Wagner (D) of New York, co-author of the bill, plans to ask a federal contribution of \$20 a month so a \$40 a month pension could be paid. To Give Testimony.

It is, indeed, revolutionary, for it commits the nation as well as individual states to a policy involving to get to school early, he had to see potential expenditures at present impossible to foresee. After the Civil War a system of pensions, starting moderately, inevitably got into politics. It grew and grew, with all sorts of evils piled the cat out of the way, and slammed progressively upon it. Industry is far from being back upon firm ground. ing everybody in bed. With full realization of the fact, the president has submitted a jous! plan that to some critics goes too far and by others is deemed altogether too mild. Every follower of the Townsend proposition, for example, will insist upon huge pensions for which it would be impossible to raise the money.

In going in for unemployment relief and aid for the aged : it is essential that we should proceed carefully. The house and senate committees—and congress itself—should not allow them- ARROGANCE ALWAYS HAS ITS selves to be stampeded by threats that unless the president's program is made much more radical the Townsend and Huey Long followers will take possession and force fantastic payments, warns the Philadelphia Inquirer. When we know how the conservative program of the president works out it will be time enough to make changes.

ANCESTOR WORSHIP

Most people today are interested only in making both ends meet, but even in these times there are persons spending money in goodly sums on one end-their family beginnings.

Curiosity, social climbing and vanity have made the building family trees a large and prosperous industry even now. The high price on the heads of ancestors is freely paid. A genealogist writing his memoirs cites only one instance of a customer being elated over the discovery of blacksheep in his family. He had his family tree-gibbeted highwayman, sheep-stealer and all-illum-

Family trees cost as much as the genealogist can inveigle from his client. In few of them is there as much comfort as in a cord of fireplace wood yet their cost runs up into the thousands of dollars.

Genealogy seems to be a futile science or industry, and yet such things keep money in circulation and make for prosperity.

ACCURACY OF NEWSPAPERS

In a recent address at William and Mary College on the making of newspapers, Frank R. Kent, veteran political writer of the Baltimore Sun, made this statement: "In no other business and in no other profession, save that of the pure scientist, is the premium on accuracy so high, the penalty for inaccuracy so prompt, and the proportion of accuracy so At first the laws were stamped on

The truth of this statement is familiar to all who are engaged in the production of a newspaper and to a great proportion of the reading public who, while uninformed concerning the mechanical processes through which the news of the day is transmitted to the reading public, nevertheless recognize the reliability of by far the greater number of

Where errors do occur, newspapers welcome the interest of readers in calling them to their attention. It is through the friendly cooperation of the reading public that newspapers are aided largely in their eternal endeavor to guard against inaccuracies.

It is interesting to recall in this connection the remark once made by so keen a critic as Woodrow Wilson, to the effect that, considering the complicated nature of the process of gathering and printing news and the speed with which it is done, it is remarkable that newspapers make so few errors of any kind.

The gold issue is immediately interesting at the moment, but for many of us, unfortunately, the interest is altogether too academic.

It is rather a coincidence that oil has been found in the area over which Italy and Ethiopia are disputing. Also, it explains a great deal.

Detroit Pulls Out Saving Millions of Dollars

New York Bureau 235 East 45th street By LESLIE EICHEL Central Press Staff Writer

NEW YORK, Jan. 21 .- The other day mention was made in this column of the progress the municipality of Detroit has made financially since Frank Couzens has been

Mayor Couzens is a son of Senator James Couzens, and is of the same fighting stock. A year and a half ago Detroit

was in precarious shape. It had a bonded debt of 400 million dollars. And deliquent taxes totaled 51 millions. The city had defaulted on its interest-and it had paid salaries with 40 million dollars of script, which would buy nothing. But now Detroit has refunded its entire bonded debt. Its debt charges

were reduced this past year from 30 millions to eight millions. And, living within its income, Detroit had a surplus on January 1

of \$11,200,000. Mayor Couzens and City Treasurer Charles L. Williams give credit to an expert in municipal finance whom they obtained, Albert S. Cobo. There is one fly in the ointment. By refunding its debt for 30 years, the next generation of Detroiters will have a considerable burden in interest and maturities. Interest will increase to 20 millions a year in 1943 and remain at that until

Better Housing Campaign Bears Fruit In City

Many Contracts Are Being Secured For Home Repairs, Contractors State

PROSPECTS TOTAL NEAR HALF MILLION

New Castle's Better Housing Campaign is beginning to bear fruit, Marcus Feuchtwanger, director of the Federal Housing Administration for Lawrence County stated this morning, and many men are expected to be put to work during the balance of the winter and the early spring on projects developed by the Federal Housing survey now under way. To date, the investigators have made 2,899 calls, out of which 1,221 prospects for home improvements have been reported, who are in need of repairs which total \$488,890.

Not only are those whose homes are in need of repairs willing to borrow the money through the facilities of the Federal Housing Administration, but they are actually letting contracts for the work, Mr. Feuchtwanger has found.

One contractor alone secured 12 contracts during the past week, he reported to the local F. H. A. office, where the prospects were secur-ed from the list tabulated in the

ESTIMATED COST

By ARTHUR C. WIMER
Special Washington Correspondent
New Castle News
WASHINGTON, D. C., Jan. 21-The Pennsylvania State Highway Department has submitted to the American Association of State Highway officials a program of 2523 road projects costing \$185,707,500, which could be commenced at once as a part of President Roosevelt's

proposed made work scheme.

The association today made pubpresented by the various state highway departments, to be accomplished to a total estimated outlay of \$1,699,021,390. The association held these programs would meet the policies of the President's new relief idea because they would be useful and afford permanent improvement, are planned and fit into a definite system of highways, do not compete with private enterprise, and because 80 per cent of the expenditures thereon would be wages. **Estimated Costs**

Of the 2523 projects proposed by Pennsylvania road officials, 1008 are listed as "early projects" to be commenced within six months or less and 1515 as "one year" projects to be commenced in about a year. Estimated costs are placed at \$61,350,-000 for the early projects and \$124,-357,500 for the one year enterprise. THE UNBELIEVABLY shocking pictures of crime and criminals published from week to week in the Hearst Sunday newspapers, should make the public and the authorities realize what our crime wave really is, if anything CAN force realiza-

ness, namely, paroling convicts, and Mrs. J. G. Kelland, Rev. and Mrs. setting them free to resume their P. D. McCracken, and son, Donald, crime careers, almost as soon as they are caught, has been discouraged by the recent break in San Quentin.

You remember that four convicts, supposed to have been led and directed by a paroled convict outside of the institution, fractured the skull of the warden, kidnaped four memhers of the parole board and took them away, as hostages.

Two of the parole board members were shot in the convicts flight, although not mortally wounded. One of the four convicts was killed, the other three captured. And now, one parole board member who was kidnaped by the prisoners, is convinced that the convicts that made the break, should be not paroled but executed.

Tenderness to criminals is all very well, but when convicts seize their good friends of the parole board, and use them as hostages, causing two to be shot, sweet sentiment suddenly changes to urging the death penalty.

Huck and Tom Return to Scenes Made Famous

With national celebration of centennial of Mark Twain's birth under way, Hannibal, Mo., is mecca of Twain lovers anxious to see scenes from which Samuel L. Clemens drew the material for his immortal novels, Huckleberry Finn, Tom Sawyer, etc. His old home, shown above, has been opened as a museum; and a statue of Huck and Tom now marks the spot at the foot of Cardiff Hill where their adventures on the river began. At the top of the hill is a memorial lighthouse casting reflections over the country about which Twain (right) wrote.

Miss Julia Capen

Miss Julia Capen is secretary with the National Young Women's Christian association, and specializes in the training of volunteer leaders. She recently returned to New York from Texas and Ok-Jahoma, where she held seminars on the work. The young women who, when they were young, took an active part in club work, are many of them using their leisure time in helping with community programs, she states. "One of the most convincing arguments for the programs of character buffding agencies, such as the Y. W. C. A., is found in the number of young women who, because o' their participation in such organi zations, are now interested in giv ing their spare time and becoming leaders in the work," says Miss Capen.

Baccalaureate Sermon Heard By Graduates

Capacity Crowd Listens To Inspiring Address Sunday At Lincoln Auditorium

REV. H. M. PATTON DELIVERS SERMON

Class Of 85 Is Urged By Speaker To Hold Optimistic View On Life

ELLWOOD CITY. Jan. 21.-Rev. H. M. Patton, pastor of the local First Christian church, inspired a graduating class of 85 of Ellwood City high school and a capacity crowd, with a timely sermon at the Baccalaureate services in the Lincoln auditorium on Sunday evening.

The occasion was marked by a splendid program which will linger in the memories of those present. All the churches of the city and vicinity participated. To the music of the high school orchestra, under the direction of Prof. Paul Winter, the graduating class in its attire of gray gowns and caps, marched in solemn procession to a reserved section of the auditorium. The procession was led by two ushers, President Ray Wallace and Miss Peggy Magee of the Senior B. class, and Supt. Vaughn R. DeLong and Principal Ralph C. Shaffer.

The subject of Rev. Patton's sermon was "All Things Made New." He urged the class not to hold a pessimistic view on life, as there are still many things to be done and new fields to open and conquer. In order for life to be successful, he COLD DRAW WINS said that it must be filled with desire, hope and experiment. Also life must be active or it is useless. The speaker illustrated his point with an interesting story. Life is not all vanity and selfishness, he pointed out to the class, and urged them not to go out into the world with this idea. Through Biblical promise there are things left to be done, Rev. Patton declared. An angel had said, Behold, I make All Things New."

Rev. Patton brought his theme of optimism to the force with the story of Labrador, a land of waste, which was finally brought to a land of promise through the initiative of man. He then asserted that to only those who do not know how to serve, will life seem useless and melancholy.

Fields of opportunity was suggested by Rev. Patton. He urged that Christian young people take a more active stand and interest in our government and uphold principal and service. An influential campaign can be launched by them against war propaganda. He also stated that there are places that spiritual people have not touched-places where people are suffering and need the care of modern knowledge, medicine and science. Also there is promise in the field of socal service for workers, so the lot of humanity can be improved the world over.

Rev. Patton closed his message by stating that there is always some trailed 15-14 at the half-time. The new height or goal to attain if one has desire to be active.

With just two minutes of play, Hughes again came to the fore with an easy shot from under the basket to place Ellwood out in front 17-16. New Brighton called time-out and upon resumption of play both teams fought desperately. Then in the last minute of play Captain Suskiewich got away to score near the basket and gain victory for New Brighton.

Hughes, local pivot man took away scoring honors with three baskets and two foul goals for a total of points. Captain Robuck also played a fine brand of basketball for Ellwood. Bingham and Captain Suskiewich were best for the victors.

In the preliminary game the New Brighton High Reserves defeated the Ellwood Reserves 21-13 in a hard fought game. The score was 4-2 for New Brighton in the first quarter, 7-5 for Ellwood at half-time, 13-11 and 21-13 final. Budasik and Mathis were in the thick of the Brighton attack. Fenechi was best for Ellwood. Beaver Falls High will be the attraction here tomorrow night. The summary:
